About Winnie the Wire Artist

Winnie Tam, a wire artist based in Hong Kong. Graduated from CUHK Master of Architecture where she developed her clean, precise design style.

Specialized in 3-dimensional line composition, Winnie transforms wire into sculpture from jewellery to art installation. Using wire as her main medium, she sees the beauty of defining space without being fully enclosed, originating from a simple line.

Started working as a wire artist since 2014, she enjoys sharing joy with art. She held hundreds of workshops for institutes, company team-building activities, family and friends gathering, as well as NGOs and government funded events. In 2020, she held her first solo exhibition in Central.

Over the years, she has worked with renowned brands such as Dior, Swarovski, MaxMara, Pullman Hotel and more.
